Nursery Summer Half Term 2 Overview

Welcome

This half term Nursery will be learning about Summer, Holidays, the Seaside, Life Under the Sea and Growing up/ Starting school.

Mathematics

As mathematicians we will be continuing to recognise, order and work with numbers to 5/10.
We will be estimating, counting and comparing groups of objects saying which has more and which has fewer.
We will be exploring 1 more and 1 less and will be doing some simple addition and subtraction.
We will be comparing height, using money in role play and measuring time in simple ways.

Communication and language

Reading and Writing

As readers, writers and speakers, we will be looking at fact and fiction books about the sea, seaside and going on holiday, including Commotion in the Ocean and The Rainbow Fish stories. We will be practising our phonic sounds and using them to blend and segment words. We will be learning rhymes and songs. We will be looking at photos of when we were younger and talking about how we have changed.

Understanding the World and Expressing Art and Design

As scientists we will be learning about some of some of the creatures that live under the sea.
As historians we will be looking at photos of when we were younger and discussing how we have changed and what we can do now that we couldn't do then.
As geographers we will be learning about different places people have been on holiday.
As artists we will be learning about making representations of sea creatures using different materials, role playing being sea creatures, pirates and going on holiday.
As designers we will be making treasure maps and making an under the sea window display.
As citizens we will be learning about how to look after our oceans and reduce our plastic use.

P.D.

As sports people we will be taking part in our Sports Day. We will also continue to build strength in our bodies through a range of gross motor and fine motor activities and will experiment with moving like different under the sea creatures.

PSED

As citizens we will be learning about how to look after our waterways, how to be kind and share, using the "Rainbow Fish "story. Thinking about our Daddies and what a great job they do. Raising money for Myton Hospice in the Walking Fundraiser Challenge.

Home Learning

As parents/carers you can support your child this term by talking to them about the sea and holidays, perhaps look at some photos of holidays you went on when you were their age. You could watch some of David Attenborough's Blue Planet documentaries. You can look at baby photos and discuss how your child has changed. You can help them to hear initial sounds in words, rhyming strings and segmenting and blending simple words. You could play games to practice recognising and ordering numbers to 5/10/ 20, count objects, or do some adding or taking away with objects practically.
